"We Make The Earth Move"

GE - DC Series Gated Ejector Dual Cylinder Scraper

The Gated Ejector - DC Series scraper is designed for soil transport and land leveling. It is equipped with a dual cylinder ejection system, one piece gate, and reinforced frame. The GE-DC series is designed to comply with higher horse powered tractors and heavier load capacities.

The GE-DC series comes standard with a laser/GPS platform. It is equipped with tandem hydraulic hose kits to pull multiple scrapers behind a single tractor.

Model	Heaped Capacity	Cutting Width	Operating Width	Weight (est)	Tires	HP required
GE-DC 2214	22 yds ³ (16.8 m ³)	168" (4.26 m)	174" (4.4 m)	28,175 lb (12,780 kg)	(4) 23.5 x 25	350 - 500
GE-DC 2012	20 yds ³ (15.3 m ³)	144" (3.7 m)	161" (4.0 m)	26,125 lb (11,850 kg)	(4) 20.5 x 25	350 - 500
GE-DC 1710.5	17 yds ³ (13.0 m ³)	126" (3.2 m)	146" (3.7 m)	25,067 lb (11,370 kg)	(4) 20.5 x 25	350 - 500
